Objective

Aspiring Full Stack Web Developer with hands-on experience in building web projects using React, Node.js, and MongoDB. Looking to contribute to end-to-end development in a collaborative team and build scalable web applications while continuously improving my skills.

Technical Skills

- **Languages:** Proficient in HTML5, CSS3, and JavaScript ES6+ for building responsive and interactive user interfaces. Also familiar with Python for scripting and backend development, and Java for object-oriented programming and backend logic.
- **Frontend:** Experienced in building dynamic web apps using React.js with hooks and state management. Skilled in creating cross-platform mobile apps using React Native, with responsive UI and integration of APIs.
- **Backend:** Hands-on experience in Node.js and Express.js to develop RESTFull APIs and handle server-side logic and routing.
- **Database:** Practical knowledge of working with NoSQL databases like MongoDB using Mongoose, and SQL databases like MySQL for structured data storage and complex queries.
- **Tools & Platforms:** Proficient in using Git and GitHub for version control, Visual Studio Code as primary development IDE, and Postman for testing and debugging APIs.

Projects

- **Lostio – Lost & Found App** Built a user-friendly mobile application using **React Native** for frontend, **Spring Boot** as the backend framework, and **MongoDB** for data storage. Implemented **password encryption** for secure user authentication. Used **Postman** extensively to test and manage APIs. Collaborated in a team of 5 members, focusing on clean UI and smooth data flow. The app allows users to report and search for lost items efficiently.
- **E-commerce Website** Developed a responsive e-commerce website using **HTML**, **CSS**, **JavaScript**, and **React Native** for frontend interface. Built backend using **Node.js** with **MongoDB** as the database. Designed and consumed REST APIs for handling product data, user actions, and cart operations. Focused on user interface and seamless backend integration for an intuitive shopping experience.

Education

- **B.Tech(Information Technology)** – Axis Institute of Technology and management, Kanpur– 2021 to 2025 – **Percentage:** 75%
- **Class 12th** – UP Board – 2020 – **Percentage:** 68.6%
- **Class 10th** – UP Board – 2018 – **Percentage:** 85%

Personal Information

- **Father's Name:** Kamlesh Kumar
- **Date of Birth:** 13-03-2003
- **Languages Known:** Hindi, English
- **Hobbies:** Walking, Coding, Exploring new technologies
